

## ***Popular Memento Collection Expands to Include New Color and Finishing Options***

Memento demonstrates the art of minimalism and creates space for individual personality through its timeless style. Featuring a wide range of washbasin sizes, as well as coordinating vanities, bathroom furniture and water closets, Memento is sleek and exudes functionality with a purist aesthetic.

With increased selections, designers and home remodeling enthusiasts find Memento washbasins timeless pieces for any bath design. Now a new matte white washbasin joins the white and glossy black options that are featured in the collection. The Memento washbasins come in 15 ¾", 31 ½", 39 3/8", and 47 ¼", and are offered in the new finishes.

The new matte white offers an elegant contrast to the stark white and helps hide water spots and fingerprints. The cutting edge design of the new finish is luxurious to touch, and is popular in the most elegant of bathrooms.

The arrival of Memento's new light wood furniture, created from fine materials to offer a strong variety of elegant options, combines harmoniously with the collection's washbasin shapes. The highly individual real oak veneer with its rich texture creates visual contrasts to the glass surfaces and ceramics typically within a bath. The handle-free drawers with 'Soft-Closing technology' close without making a sound, adding practicality to the timeless design. The vanity units offer pull-out compartments and drawers and lighted mirrors. Available in five sizes, the vanity unit for the Memento washbasins mimics the curvature of the design vocabulary.

Also popular is the tall cabinet with two drawers and two doors, and a shelved element with three wooden shelves, ensuring that suitable options are available for both large and small bathrooms. The wall-mounted side cabinet includes one door, one drawer and two wooden shelves. With hinges available on either side, the side cabinet completes the collection and offers a stylish storage solution for those seeking to make the bathroom functional without sacrificing style and elegance.
